Description

Metonitazene CAS14680-51-4
Our company can provide best price . highest quality and safest delivery.
we also supply brmk oil,pmk oil ,dimethocaine...
Payment: TT,Western Union or BTC ADDRESS
Delivery time: 1-3 days
Product purity: 99%

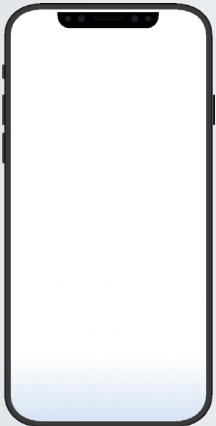

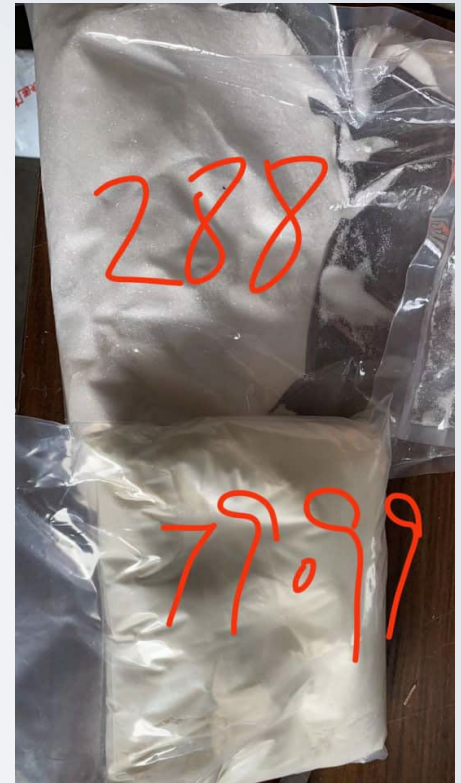

The screenshot shows the website for Crovell Biotech. At the top, there is a navigation menu with links for HOME, ABOUT, PRODUCTS, NEWS, HONOR, MESSAGE, and CONTACT. Below the menu is a large banner image of a factory building with a sign that reads "河北冠朗生物科技有限公司" and "HEBEI GUANLANG BIOTECHNOLOGY CO., LTD". Underneath the banner are four icons representing different product categories: Pharmaceutical Intermediates, Organic Chemicals, Pharmaceutical Raw Materials, and Best Sellers. A "RECOMMENDED PRODUCTS" section follows, displaying five product images with labels: "Base", "Tetracaine Base", "Benzocaine GuanLang", "Tetracaine Hcl", and "Procaine Hydrochloride". Below this is a "NEWS" section with a post titled "Procaine hcl in stock" dated 01-15. At the bottom, there is a "MESSAGE" button.

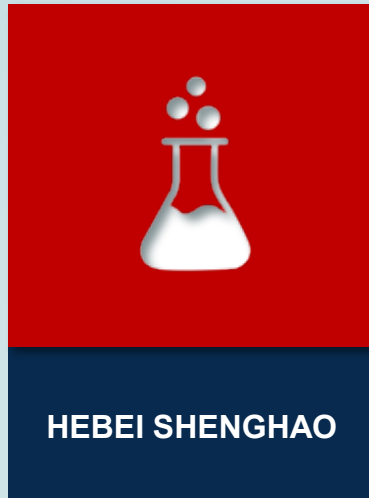

The screenshot shows a LinkedIn post by Belinda An. The post is titled "Published on LinkedIn" and contains the following text: "In 2030, my country's chemical industry output value will account for 50% of the world's global". Below this, it says "Throughout the globalization process of the world chemical industry chain, the chemical industry chain has experienced a gradual shift..." and "by Belinda An · 9 min read". The post features an image of a blue bowl containing white powder, with a label that reads "Methylamine hydrochloride +86 [redacted] [redacted]". Overlaid on the image is contact information: "WhatsApp/wechat: +86 [redacted]", "Wickr me: [redacted]", and "Email: [redacted]@crovellbio.com". Below the image, the text reads: "GuangLang is the biggest factory of methylamine hydrochloride" and "Hebei Guanlang is the biggest factory of methylamine hydrochloride, the purity is above 99%, and all the customers are very satisfied with...". It is dated "by Belinda An · 1 min read". At the bottom of the post, there is a "Show all articles" link and an "Experience" section listing "Area Sales Manager" at "Hebei guanlang biotechnology co.,ltd" from April 2015 to the present (8 yrs 4 mos).

The screenshot shows an Instagram post by a user named "belinda". The post is a photograph of a large warehouse filled with stacks of white bags of methylamine hydrochloride. A sign on the wall reads "河北冠朗生物科技有限公司" and "HeBei GuanLang Biotechnology Co., Ltd". The post has a caption that says "Methylamine hydrochloride with very cheap price now" and is dated "September 27, 2021". The post also shows standard Instagram interaction icons (heart, comment, share, save).

“Currently the most popular ones in Mexico are 79099 and 288573 and 79-03-8 including 103-63-9. I also do a lot of deliveries to Mexico, where I also have some customers. I have a few clients in Culiacan, [Sinaloa], Mexico, and other areas, old clients that I’ve been working with for years.”

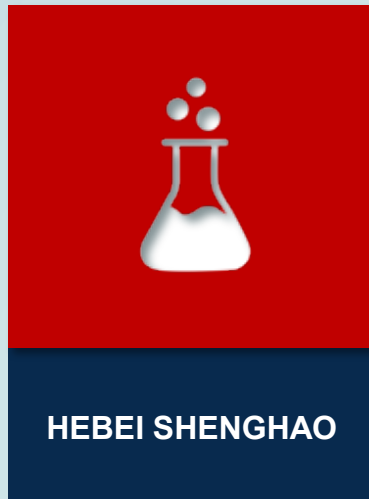

“Because this is dangerous goods,
we cannot send small samples.”

“Had a warehouse in Mexico with
800 liters of 79-03-8 . . . a lot of
clients in Mexico and have been
working with them for 6-7 years.
Has been stable supply.”

“You should know that we will deal with all kinds of emergencies. Just like your last order of 288573 and 79099 was seized by the customs, we will resend the goods free of charge, my friend. . . . The barrel will be packed to avoid problems with customs, correct? . . . Please rest assured about the packing. We are very experienced in it.”

PRECURSOR CHEMICALS

- 1-BOC-4-Piperidone
- Methylamine HCL
- N-Boc-4-Piperidone
- 1-Z-4-Piperidone
- 3,4-MDP-2-P methyl glycidic
- (2-Bromoethyl) Benzene
- Propionyl chloride
- Tert-butyl-4-(4-fluoroanilino) piperidine

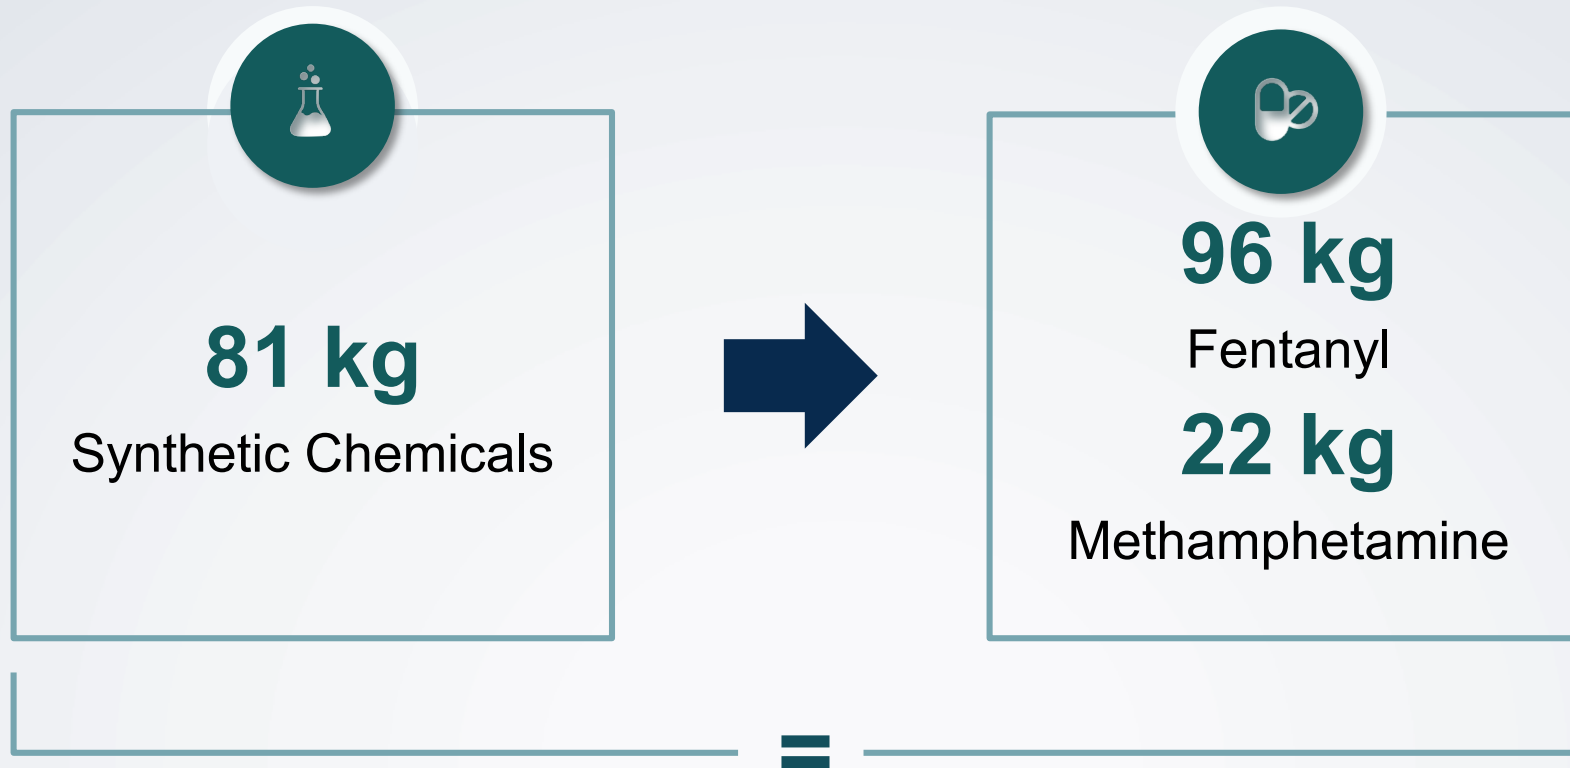

MANUFACTURED INTO

- Fentanyl Powder
 - Fentanyl Pills
 - Fentanyl Analogues
-
- Methamphetamine
 - MDMA

DANGEROUS DRUGS USED AS ADDITIVES

- Xylazine
- Protonitazene
- Metonitazene

48,928,024 Deadly Doses
